EPOS BrainAdapt™ in Meeting Room Solutions

Stay Focused with Audio Designed for Your Brain

At EPOS, we understand that we hear with our ears, but listen with our brain. Designed to enable seamless collaboration, EPOS Meeting Room Solutions built on EPOS BrainAdapt™ technology provide the best conditions for your brain for improved focus and better concentration in hybrid meetings.

-  Improved Focus
-  Better Concentration
-  Increased Productivity

With unique algorithms and sophisticated acoustics, EPOS Meeting Room Solutions help reduce cognitive load on the brain, the key for increased meeting productivity for you and the people you collaborate with.

Hybrid Workplace: The Facts

Hybrid work is here to stay...

- **52%*** of employees consider switching to remote or hybrid work in the year ahead
- **42%*** of US workers would consider quitting if they had to return to full-time office work

...but it has its challenges

- **43%*** of global remote workers say they do not feel included in meetings
- Only **27%*** of companies have a hybrid meeting etiquette to ensure everyone feels included and engaged

Good audio matters

- **56%*** believe good audio will prevent moments of stress at work

EPOS Digital Solutions

Empower Your Business Anywhere

Save valuable time and make life simpler and smarter for your IT department, your business and your colleagues. By keeping you in touch with all your EPOS devices, EPOS Manager puts you in control of your company's UC environment in three key areas:

Asset Management

[Get the overview](#)

See all your devices on the dashboard; from headsets to speakerphones and even non-EPOS devices. All users are registered in the system, which shows both active and inactive devices – who is using which device and how they are being used. Simply reallocate redundant resources to boost productivity. Reports on usage and firmware compliance keep you in complete control of company assets.

Update Management

[Less downtime, more convenience](#)

A flexible and cost-effective way to get the latest firmware updates to all your organization's EPOS devices, whenever it's convenient for you and your end-users. Push new updates to an unlimited number of devices across your organization from one simple dashboard. Schedule your automated updates to cause minimum downtime and disruption to your company's workflow.

Configuration Management

[Easy for you, easy for end-users](#)

The centralized configuration option allows all settings to be controlled from the IT department, ensuring that headset user's experience a simple plug and play solution. You can centrally push configurations or lock specific specifications on EPOS devices to comply with regulatory compliance settings for specific groups or individuals.

EPOS Manager for IT Administrators

EPOS Manager has been developed for companies with a need to control their UC environment in a fast and secure way. By installing the client application, EPOS Connect, on your end users' PCs, you gain a complete overview of all deployed devices and access to new updates and settings.

For companies with several locations, it's possible to manage, update and control settings for all end-users in the entire organization. For improved security, all communication and data are encrypted and no sensitive data is stored.

The resulting simplification of the asset, update and configuration management gives great savings in both time and money.

EPOS Connect for Headset and Webcam Users

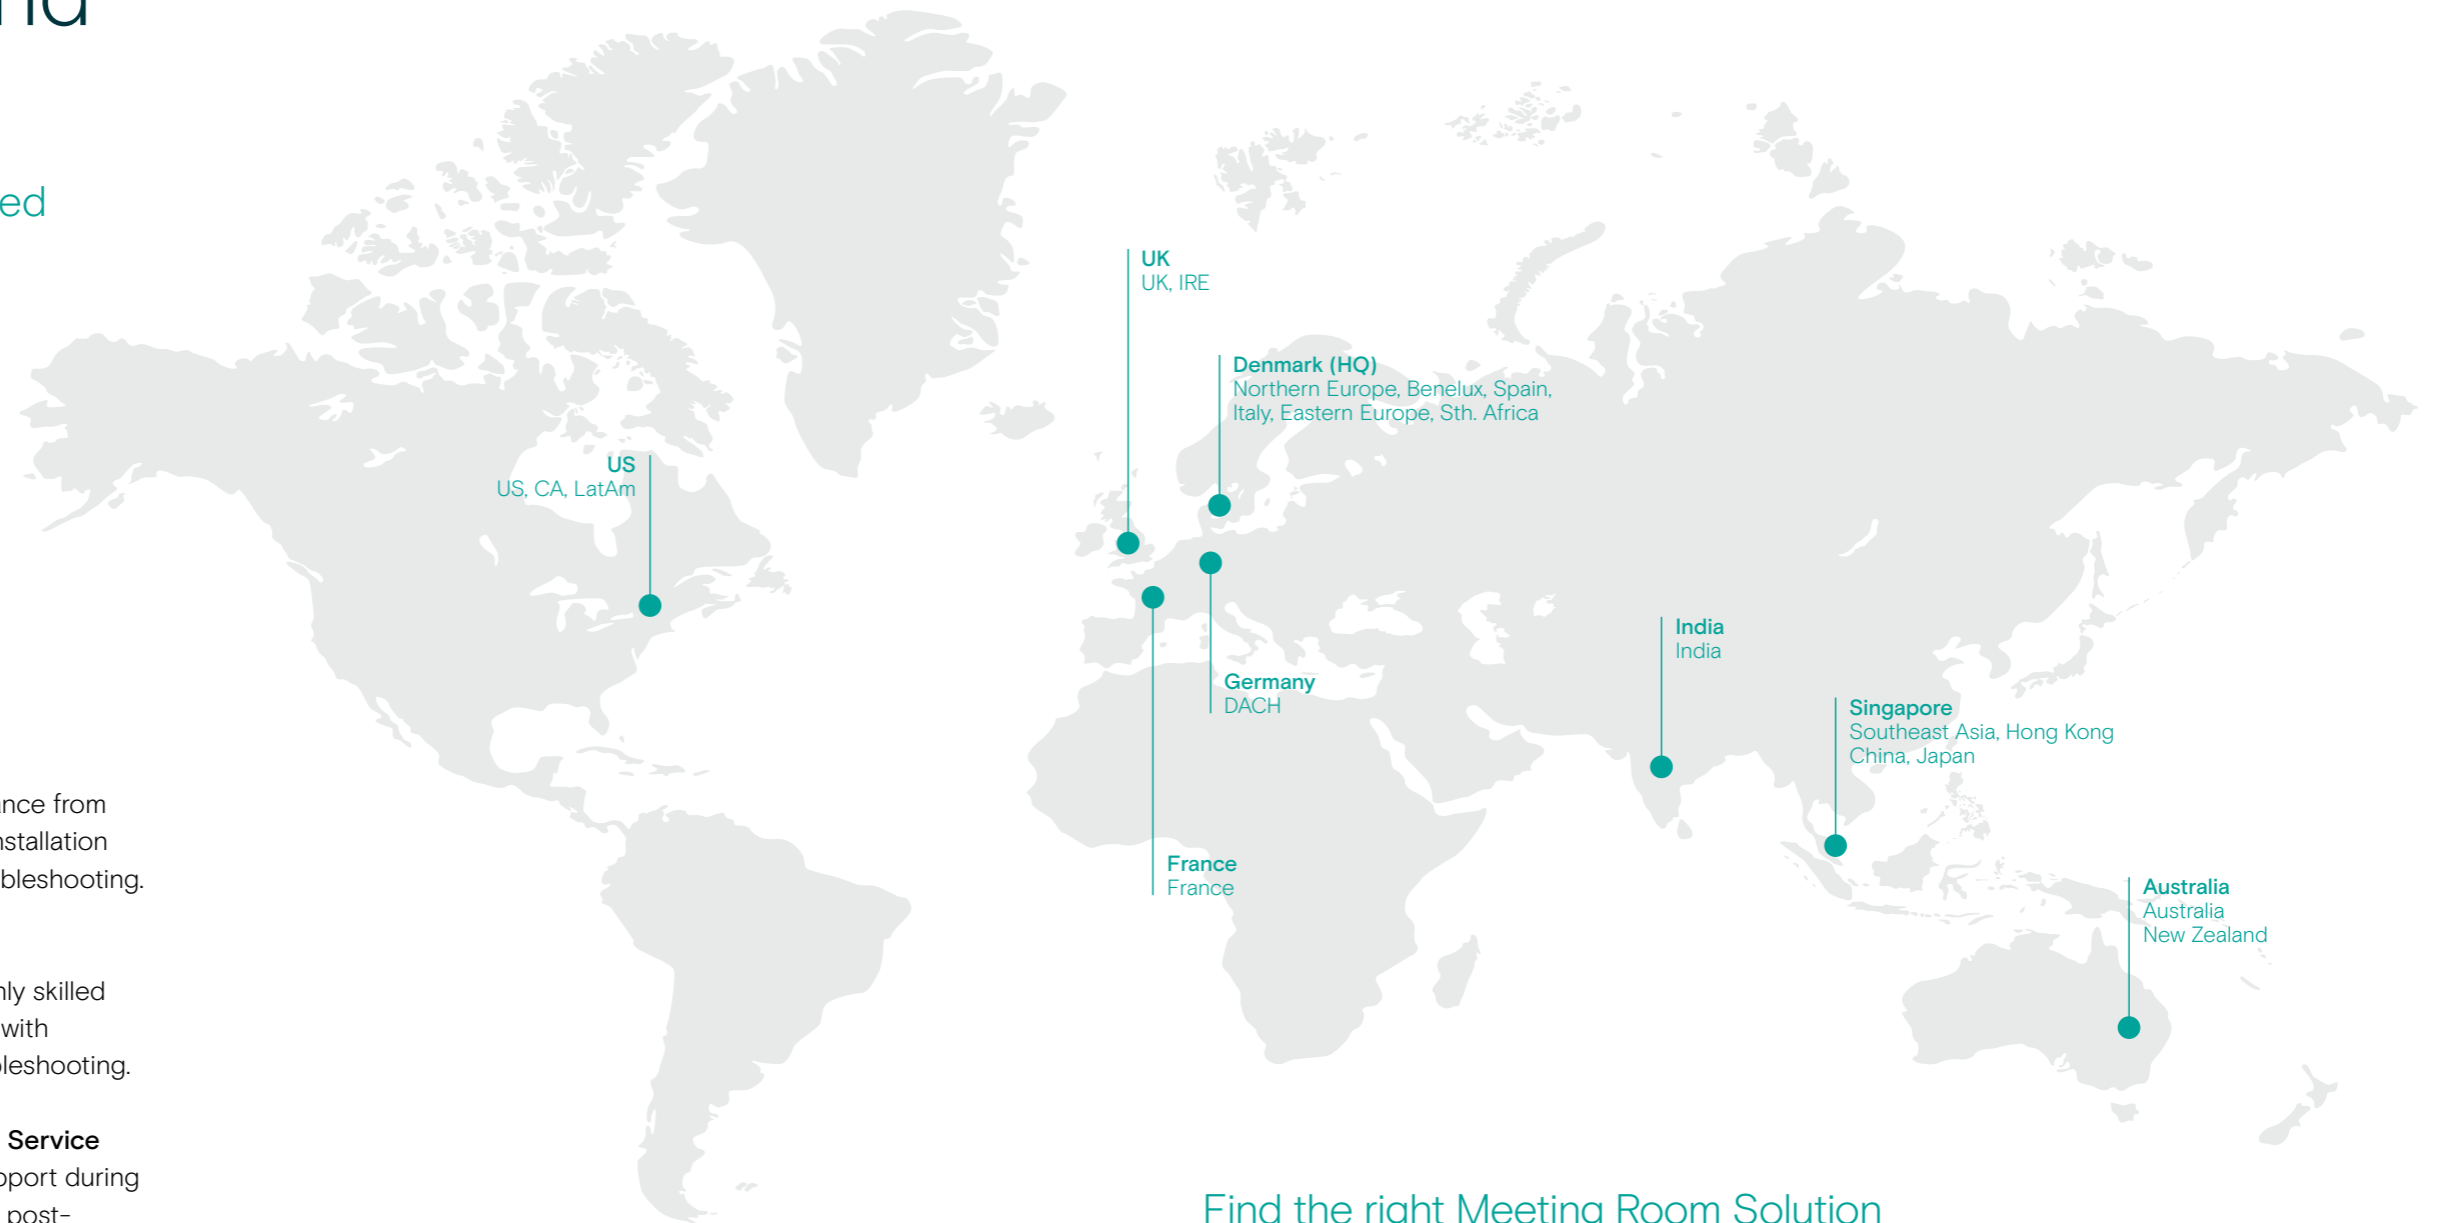

EPOS Connect is the client application running in the background on the headset or video user's PC. The solution ensures that EPOS work seamlessly with various leading softphones and give you access to the latest firmware updates and personalized settings.

EPOS Connect is uniquely configured to either work together with a signed-up company account on EPOS Manager or as a stand-alone application for smaller companies or personal use.

Designed to be simple to use, the application allows EPOS headset, video and speakerphone users to enhance and personalize their experience and productivity simply and quickly.
